Projects

Portfolio – www.desco.vercel.app
This is my portfolio website, which I created with react, sass, and framer motion. Many of my projects can be found here.

DESCO – https://alba-sports.vercel.app

This is a website for a sports club called 'Desco.com', It is authenticated with firebase authentication where interested people can sign up and join. It also has a profile dashboard, You should enjoy this. Users have their dashboards built using React Js, Styled components, and Firebase.

READ QURAN APP – https://readquranapp.netlify.app
if you are a Muslim or interested in reading the Quran, This is for you I made this using a Quran API. It's fully functional. Built with Reactjs, styled-components, and Quran API.

Salad – https://saladdemo.netlify.app
This is a demo for a web app `Salad` where customers can order food and it will be delivered to them. Aesthetically pleasing and has good graphics. View!

Justice – https://justicehere.netlify.app/
This is a website where you can get the services of lawyers and even get free consultations.

Setra Restaurant– https://setra-resturant.vercel.app/
This is for a restaurant where customers can go and know more about them and their services .

Lampnet Internship – https://lampnet-trial.vercel.app

One of my trial projects for Lampnets Internship.

Personal Achievements

- ❖ Runner-Up Digitest Competition (Digital Peers International)
